A NEW ERA OF PARISH TECHNOLOGY

A parish is intricate. Administrators maintain a fine balance between vision and details, dreams and hard numbers, personal enthusiasm and communal commitment. Rarely does this process resemble anything easily manageable, let alone beautiful. Empower your parish to think beyond the systems, engaging the individual in the context of the integrated whole with this parish technology.

INTEGRATE YOUR DATA | ENGAGE YOUR PARISH | EVANGELIZE YOUR COMMUNITY

Introducing a revolutionary, cloud-based software solution empowering a parish's mission to evangelize its community.

- ▶ Built on salesforce.org, the world's #1 data management system
- ▶ Powerful online community to help you engage with people in real time
- ▶ One integrated software product:
 - Data Management
 - Online Community
 - Website
 - Giving Management
 - Facilities Manager
 - Volunteer Manager
 - Event Manager
 - Ministry Manager
 - Sacramental Record Keeper
 - Religious Education Schedule

Your parish ministry is about more than simply managing some data. It's about caring for the people in your midst. It's about connecting them with your community and helping them connect with each other so they can grow in their faith.
